

Tim Godfrey's The Westside Lumber Company

Tim Godfrey will be hosting a workshop on '**The Westside Lumber Company**' .

Tim has been in the hobby for many years and has built many models throughout that time. He has always had a keen interest in narrow gauge.

In his business, he travel throughout the world and some of that time He spent in California where he became acquainted with the railroads of California, especially the West Side Lumber RR.

If you have a chance to visit his RR during your stay you will see the influence of logging railroads in His work. During the years he spent much time in that area of California and begun to read many books on that particular railroad. He has since collected many of the Westside Lumber locos including some in Sn3. If you want to learn about logging railroads this clinic is for you !
