

## Ted Van Pelt's Oil Industry of the 30s & 40s

**Ted Van Pelt** will be hosting a workshop on '**Oil Industry of the 1930's and 1940's**' .

Ted has been in the hobby for well over 50 years. He has been building models including rolling stock and structures for that entire time,.

Those who know Ted well will tell you His layout and the structures on it are something to behold. Come spend an hour with Ted and learn about an industry that is seldom modeled.

You will see his modeling in the Oil fields and maybe decide you might like to add this to your layout too !!! And be sure and take a trip south to see Ted's Layout. It is well worth the drive.
