**The show is at the Bradenton Area Convention Center, 1 Habon Blvd, Palmetto, FL.**

## **Largo Central R. R.** Largo, Fl.

**\*\* 7 1/2 gauge \*\*** This track is located in a City Park that has a good unloading area and yard storage tracks. A well thought out track plan makes for an interesting and enjoyable ride. Public rides are given on the 1st full weekend of each month. To run on this track all engines must be equipped with a headlight and a rear light on the end of the train even during the day. It becomes apparent for this as you go through the recently installed tunnel that is pitch black in the middle. Another interesting feature is the ride over the pond. Much new track and new crossties are now being installed.
